

COURSE RECORD

Code	GLB 206
Name	Clean Water & Sanitation
Hour(s) per week	3 (2 Theory + 1 Practice)
Credit	3
ECTS	3
Level/Year	Undergraduate
Type	Elective
Prerequisites	BRG 001 – English Bridge Course
Description	Water, the backbone of all life on earth, is the simple most important element in our lives. Despite its vital importance it is highly contested as access to it is restricted by several social, economic and political factors. This class will focus on the social life of water and help students perceive a key ingredient of life as a socially constructed commodity, a contested policy tool and finally a sustainable development goal. United Nations' sixth SDG problematizes all these aspects of water and provides us a framework to better understand and appreciate the place of water in our lives across regions and countries as well as generations. We will appropriate this framework and adding interdisciplinary thinking and interaction to that framework, we will develop a unique sociological understanding of this vital source of life.
Objectives	<ul style="list-style-type: none"> • Assisting students increase their awareness of the definition of SDG 6. • Encouraging individuals and team members to actively engage in in-depth conversations about SDG 6. • Implementing team-oriented learning methods. • Fostering peer learning across different disciplines.
Learning Outcomes	<p><i>By the end of the course, the student will be able to</i></p> <p>LO1. Identify key features of SDG 6.</p> <p>LO2.
